

*COME celebrate with us the 2019 NSTW!*

17-21 July 2019, Wednesday-Sunday

World Trade Center, Pasay City

Theme: "Science for the People: Enabling Technologies for Sustainable Development"

## **Beyond disaster relief: ITDI *Sagip* Powder as health food**

Originally developed as emergency food reserve (EFR) during calamities, the *Sagip* Nutrifood Powder can also serve as alternative healthy food additive to various food products.

Developed by the Industrial Technology Development Institute (DOST-ITDI), SAGIP Nutrifood is a powdered mixture of cassava, malunggay, sweet potato, and mungbean.

The powder can be used as a healthier alternative to common flour for use in breads, cakes, puto, polvoron, and other pastries.

The Emergency Food Reserve is one of 21 ITDI-developed technologies selected to be featured in Cluster 2 - Aging Society, Health, and Medical Care of the 2019 National S&T Week (NSTW) Exhibits slated on July 17-21, 2019 at the World Trade Center-Metro Manila. Admission to the exhibits is FREE. It is open to the public from 8:00 AM to 5:00 PM.

NSTW is celebrated every third week of July through Proclamation No. 169 of 1993 to highlight significant contributions of S&T to national development. (RRUdela Cruz \ \ ITDI S&T Media Services)
