

B. The basis for processing personal data

On August 26, 2009, the ITDI Rationalization Plan was approved and implemented immediately. ITDI is mandated to conduct knowledge translation or technology transfer and commercialization. ITDI is also mandated to provide technical services, tests and analyses, and metrology to ensure international traceability of the national units of measure. By providing those services, ITDI collects, process and maintain different relevant information including personal information of its customers. ITDI also creates job opportunity through its approved projects in research and development. ITDI follows the guidelines of Civil Service Commission and Commission on Audit when hiring regular and contract of service personnel. For ITDI legal basis of existence as government agency, you may visit our history page through this link <https://itdi.dost.gov.ph/index.php/transparency-seal/history>
