

Science-Art twin exhibition showcases DOST-ITDI disaster responses

DOST introduces the concept of Science -Art twinning in a bid to showcase scientific advances in an artistic manner.

The DOST group and the public will be able to enjoy the Science-Art exhibitions being displayed by line agencies for a month.

For mid July to August 2023, DOST-ITDI is showcasing the following innovations as disaster responses.

These include a wall panel display explaining about the Virology and Vaccine Institute of the Philippines Program (VIP); RTE relief foods, abaca fiber-reinforced boat, and reference materials, among others. (AMGuevarra\ TSD-ITDI)

Inspired by Technology, Driven by Innovation
