ENGR. CERUMA EARNS PRESTIGIOUS BACK-TO-BACK ENGINEERING CERTIFICATIONS

Engr. Divine Rhea J. Ceruma, a Science Research Specialist II at the Chemicals and Energy Division (CED) of the Industrial Technology Development Institute (DOST-ITDI), has achieved significant milestones in her professional career by obtaining two highly regarded engineering certifications.

First, she has been awarded as a Certified Energy Auditor (CEA) by the Association of Energy Engineers (AEE). This globally recognized certification is often a prerequisite for leading energy audit projects, especially those that are compliance-driven or subject to regulatory standards. The AEE, headquartered in the United States, operates in 81

countries, making this qualification a prestigious accomplishment on the international stage.

In addition to her CEA certification, Engr. Ceruma was recently conferred the title of ASEAN Engineer by the ASEAN Federation of Engineering Organizations (AFEO). The conferment ceremony took place on October 23, 2024, in Kota Kinabalu, Malaysia, further enhancing her impressive list of credentials.

These dual achievements underscore Engr. Ceruma's dedication to advancing her expertise in the field of energy and engineering, positioning her as a key figure in both national and regional initiatives.

Congratulations to Engr. Ceruma on her remarkable accomplishments!
