greenliving, a lifestyle TV show on sustainable urban living, featured DOST-ITDI's new and green reversing technology to remove oil spills from oceans.

Developed by Dr. Emelda A. Ongo, 4C Oil Spill Adsorbent is a mixture of chitosan (a by-product of chitin [pronounced as /'kaɪ.tɪn/] from shells of shrimp, crab, or lobster) from shrimp and calcium carbonate from eggshells for use as biosorbent.
