

ADMATEL (Advanced Device and Materials Testing Laboratory)

- ❖ Address the failure analysis and testing gaps plaguing the country's electronics and semiconductor industry.

- ❖ **PNS ISO/ IEC 17025:2005 Accreditation Certificates:**

- Thermal Analysis Laboratory
- Chemical and Metallurgical Laboratory

[Awarded by the Department of Trade and Industry's Philippine Accreditation Bureau (DTI-PAB), May 4, 2015]

- ❖ Accreditation provides wider opportunities to accept laboratory tests and services in the ASEAN region.

- ❖ **New services**

1. Auger Electron Spectroscopy
 - Chemical State Analysis
2. FIB-FESEM
 - STEM with EDS Analysis
3. TOF-SIMS
 - Depth Profile at wide mass range

4. Simultaneous TG-FTIR Analysis
5. Isothermal study using DSC
6. Determination of coefficient of thermal expansion using Thermomechanical Analyzer (TMA)

❖ New prices and discounted fees for students and MSMEs
